SPRING
1923

Do You Have My Catalogue for 1922?

I am not getting out a new edition of my catalogue this season. I shall be glad to mail a copy of the Spring 1922 edition upon request.

Fall Planting Season

My hardy Penn'a grown nut trees can be as safely planted in the fall as any other hardy deciduous trees and I recommend fall planting and practice it myself. We plant here up to Xmas usually, though some years, as in 1919, the ground freezes hard by the middle of Dec.

Fall planting has several advantages over spring planting. In the fall one usually has more time to do the work and the ground is usually drier and more easily worked than is the case in the early spring months. Fall planting to, does not call for such particular work, as the late fall rains and the subsequent freezing and thawing, settles the dirt solidly around the roots of the trees so that, by the time spring arrives, conditions are favorable for an early start and maximum growth of the trees.

Supply and Prices of Trees

I made the announcement last year that there would be a material advance in the price of trees this season. Since the price of necessities and production costs is on the decline and likely to be permanent, I have decided to hold prices where they were and these prices will remain as they are till my present stock, or the bulk of it, is worked off, which will take only a year longer, or till spring 1924. Any one contemplating the planting of a commercial nut orchard should do so now. I am offering special inducements at the present time to those wanting 100 trees or more. After the present supply is worked off, the trees will cost full retail prices regardless of quantities taken and the retail prices will probably be advanced 50 cents per tree.

Commercial Planting of Nuts

In his address before the Nut Growers, in convention here at Lancaster, Pa., Oct. 6th and 7th, 1921, Prof. F. N. Fagan, State College, Pa., said that, in his opinion, the principle draw-back to commercial planting of nuts at the present time was the high prices that it was necessary to charge for the trees. While this is probably true, I can not see any way of reducing this cost. While the growing of fruit trees can be commercialized or put on a big scale, this can not be done with

nut trees. The average man can be soon taught to bud or graft fruit trees and get a high percentage of buds or grafts to take, but this can not be done with the nut trees, at least with our present knowledge of the propagation of these trees, and to try to increase the out-put beyond what one can actually look after personally, is to increase the cost of the trees instead of lowering it. What nut culture needs most at the present time is ten or a dozen young men to take up the work of propagating these trees and I will gladly help any young man who has an inclination in this direction to learn the propagation of these trees.

Prices of Nut Trees, Regular Nursery Sizes, Fall 1922

PECAN TREES —2 to 3 feet				\$2.00 each or \$20.00 per dozen.
"	"	3 to 4 feet	2.25 each or	22.50 per dozen.
"	"	4 to 5 feet	2.50 each or	25.00 per dozen.
"	"	5 to 6 feet	2.75 each or	27.50 per dozen.
"	"	6 to 7 feet	3.00 each or	30.00 per dozen.
BLACK WALNUT TREES —2 to 3 feet				\$1.75 each or \$17.50 per dozen.
"	"	3 to 4 feet	2.00 each or	20.00 per dozen.
"	"	4 to 5 feet	2.25 each or	22.50 per dozen.
"	"	5 to 6 feet	2.50 each or	25.00 per dozen.
"	"	6 to 7 feet	2.75 each or	27.50 per dozen.
"	"	7 to 9 feet	3.00 each or	30.00 per dozen.
ENGLISH WALNUT TREES —2 to 3 feet				\$2.00 each or \$20.00 per dozen.
"	"	3 to 4 feet	2.25 each or	22.50 per dozen.
"	"	4 to 5 feet	2.50 each or	25.00 per dozen.
"	"	5 to 6 feet	2.75 each or	27.50 per dozen.
"	"	6 to 7 feet	3.00 each or	30.00 per dozen.
LANCASTER HEART NUT —2 to 3 feet				\$2.25 each or \$22.50 per dozen.
"	"	3 to 4 feet	2.50 each or	25.00 per dozen.
"	"	4 to 5 feet	2.75 each or	27.50 per dozen.
"	"	5 to 6 feet	3.00 each or	30.00 per dozen.
"	"	6 to 7 feet	3.25 each or	32.50 per dozen.
"	"	7 to 9 feet	3.50 each or	35.00 per dozen.
BEAVER SHAGBARK HICKORY —2 to 3 feet				\$2.25 each or \$22.50 per dozen.
"	"	3 to 4 feet	2.50 each or	25.00 per dozen.
"	"	4 to 5 feet	2.75 each or	27.50 per dozen.
"	"	5 to 6 feet	3.00 each or	30.00 per dozen.
RIDENHOWER ALMOND TREES —4 to 6 feet				\$1.00 each or \$10.00 per dozen.
"	"	3 to 4 feet	.75 each or	7.50 per dozen.
GRAFTED PERSIMMON TREES —2 to 3 feet				\$1.50 each or \$15.00 per dozen.
"	"	3 to 4 feet	1.75 each or	17.50 per dozen.
"	"	4 to 5 feet	2.00 each or	20.00 per dozen.
"	"	5 to 6 feet	2.25 each or	22.50 per dozen.
EUROPEAN FILBERT PLANTS —1 to 2 feet				\$1.00 each or \$10.00 per dozen.
"	"	2 to 3 feet	1.25 each or	12.50 per dozen.
"	"	3 to 4 feet	1.50 each or	15.00 per dozen.
"	"	4 to 6 feet	2.00 each or	20.00 per dozen.

Bush Chinquapin, bearing sizes, \$2.00, \$3.00 and \$4.00 each according to size. Very fine bushes and bearing splendidly.

Varieties in Various Nuts for Sale Fall 1922 and Spring 1923

PECANS—Butterick, Niblack, Posey, Greenriver, Major, Marquardt, Indiana and Busseron.

ENGLISH WALNUTS—Wiltz Mayette, Vrooman Franquette and Rush.

BLACK WALNUTS—Thomas, Ohio, Stabler and Ten Eyck.

HEART NUT—Lancaster.

SHAGBARK—Beaver.

FILBERT—Barcellona, English and White Aveline.

PERSIMMON—Josephine, Early Golden, Lambert and Garretson.

Larger Trees for Quick Results

I have a limited number of fine large twice transplanted trees of the Pecan, Black Walnut, Hybrid Pecans, Hybrid Hickories, Chinquapin, etc., for quick results in bearing or immediate ornamental effect. If interested, write for descriptions and prices of these.
